Following the Sale of Canal Bonds the Market Shows Strength-Turnover Greater Than Recently, and Gutlook for Future Much Improved-Sterling Again Strong.

New York, Aug. 17.-Even more impressive than the continued strength and broader range of the stock market today was a marked improvement in the demand for bonds. Before the opening Kansas City So. ne of the few noteworthy evidences of improvement in the bond market that has been admitted since stocks turned nas been admitted since stocks turned upward was supplied by the bids for New York State 4 per cent bonds.

Early in July the State authorities were unable to secure bidders for the New York State 4 per cent bonds.

entire amount of a bluck of \$11,000,000 of these bonds, and were obliged to hold p bids were announced to-day, and a great change between conditions in the bond market a month ago and now seemed to beshown by the act. The present offering was ten times oversubscribed, whereas its predecessor was a partial failure, and the price secured to-day was 101.77. as compared with a price only a slight Union Pacific com. fraction above par for the subscribed portion of the issue last month.

Bonds Sell Higher.

On the stock exchange to-day bonds strength in them was accompanied by in- American Can common creased activity, and strength in the American bond market as a whole, with the result that sales were in excess of \$2,000,000, as compared with about \$1,250,000 yesterday and less than \$1,000,000 Monday. and less than \$1,000,000 Monday.

The improvement is, of course, not great enough to indicate at all positively Am. Tobacco pfd....... the beginning of an upward turn in Am. Woolen com. bonds, but at any rate it holds out the Anac hope of such a movement, and the great accumulations of idle capital in the banks further strengthens the encouragement derived from it.

In stocks also the investment demand Distillers' Securities is undoubtedly increasing, though it is not yet important enough to indicate i any public interest. In the stock market, prices declined moderately in the early trading under realizing sales, but the market soon hardened, and in the afternoon a broad and active upward turn carried the list to a new high level. The turnover was considerably greater than on the average of recent days, and interest more widely discerning. Ad- T vances in many of the ordinarily less ctive stocks were again greater than the active speculative shares, and U brokers reported a moderate demand for U. S. Steel com.
high-grade investment shares. Political Utah Copper ... developments indicating a determined fight against radical politics, particularly Westinghouse Eec. nd sale, concrete developments of market importance were not numerous. It was announced that the Lackawanna Steel Company had been awarded the contract for 10,000 tons of steel rails for the National Railways of Mexico, but the weekly reports from the iron and steel trade, though showing a slight improvement in the demand for certain products, displayed no relief from the dullness in those departments which depend upon the railroads for orders. railroads for orders.

The Safest Investment's

Are those that do not fluctuate during dis-furbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estata in the District of Columbia, constitute "gill-edge" investments. They do not derend edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability, and are exempt from taxation as personal property. We can supply such invostments in amounts from 500 upward. Send fee booklet, "Concerning Loans and Investments."
